

HS-923 C belongs to anti-freezing type high elastic swimwear paste, high washing fastness, strong elongation

TYPICAL PROPERTIES

Solids	45±1 %
PH	7.5-8.0
Viscosity at 25°C.	90000-100000 cps.

TYPICAL FILM PROPERTIES

Appearance (20°C)	Milk white liquid
Solubility	Cold water easy dilution
Mesh	32-60T

STORAGE AND SAFETY

HS-923C should be stored in a tightly closed container at room temperature and protected from temperatures below 5°C. As with most emulsions, care should be taken not to expose HS-923C to temperatures nearing 0°C., since this may affect the product beyond recovery.

Generally accepted safety precautions for the utilization of industrial coatings should be employed, including a suitable ventilation and the use of mask when spraying the product.
